OBJECTIVE

IT Support Specialist with hands-on experience in Windows administration, Microsoft 365, desktop support, network troubleshooting, and end-user support. Skilled in resolving hardware, software, and connectivity issues, managing IT assets, and supporting day-to-day IT operations. Bachelor's degree in Information Technology (CGPA: 3.9/4). Seeking opportunities in IT Operations, Network Support, Systems and Application Support, or Infrastructure where I can contribute immediately and continue developing my technical expertise.

EDUCATION

Bachelor of Science in Information Technology, (CGPA: 3.9/4) March 2023 - July 2026

Eastern Mediterranean University

Relevant Coursework: Computer Networks I & II, Operating Systems, Information System Security, Cloud Computing Applications, Database Management Systems, System Analysis and Design

EXPERIENCE

IT Support Specialist

Al Faris Logistics

August 2025 – Present

Jeddah, Saudi Arabia

- Delivered technical support for hardware, software, Windows, and network issues, minimizing downtime and ensuring business continuity.
- Managed user, permissions, and Microsoft 365 services, supporting secure onboarding and offboarding.
- Installed, configured, and maintained desktops, laptops, printers and other IT assets.
- Diagnosed and resolved LAN, Wi-Fi, VPN, and connectivity issues, escalating to vendors when required.
- Managed incident tickets, performed root-cause analysis, and maintained accurate asset documentation.
- Supported system upgrades and maintenance to improve infrastructure reliability and user productivity.

IT Help Desk Intern

Trans Desert Transport Co. Ltd.

June 2025 - August 2025

Jeddah, Saudi Arabia

- Delivered first-level IT support and successfully resolved hardware, software, and network issues for employees, reducing downtime and improving workflow continuity.
- Performed root-cause analysis, contributing to improved resolution times and fewer repeat incidents.
- Documented incidents and contributed to internal knowledge base for repeated issues.
- Supported and maintained office peripherals (printers, scanners, mobile devices), completing routine maintenance tasks to reduce recurring technical problems.
- Collaborated closely with cross-functional teams and communicated clearly with end users, ensuring consistent technical support and positive user experience.

Student Ambassador

Microsoft Learn

January 2024 - June 2024

Remote

- Deployed cloud-based projects using Microsoft Azure, GitHub, and web hosting tools.
- Delivered live sessions and assisted students with issues related to development tools and cloud services.

Warehouse Data Operator

Trans Desert Transport Co. Ltd.

May 2019 – March 2023

Jeddah, Saudi Arabia

- Coordinated with Ericsson field technicians to dispatch hardware spares during critical outages, supporting timely service restoration.
- Managed 8,000+ RMA shipments, operational records, and warehouse data while maintaining accuracy and Ericsson quality standards.
- Led daily warehouse operations, supervised 3–5 staff, and prepared weekly/monthly reports using Microsoft.
